

A journey among villas and castles

Palazzo Tozzoni

The palace, which became a civic museum in 1981, is a rare case of an aristocratic residence preserved not only in its architectural consistency but also in its furnishings and fittings. It will be an experience immersed in the art and history of the Tozzoni counts, to whom the houses, which only between 1726 and 1738, were converted into a palace, belonged.

Place and date

Imola
Sunday, 12/05/2024
